NEWS TIPS

NOTE FOR COVERAGE: For media coverage on Saturday and Sunday, please call Vicki Adams, assistant director for student information systems, at (937) 229-3962 prior to coming to campus. If she's not immediately available, leave a voice mail message and she will respond. Campus buildings will be locked, and she can make arrangements for access by media crews.

SATURDAY AND SUNDAY, JAN. 1 AND 2: UNIVERSITY OF DAYTON COMPUTER STAFF TO BRING CAMPUS BACK ONLINE, TEST SYSTEMS

Large numbers of staff members won't be monitoring computer performance at the University of Dayton on New Year's Eve because the University elected to disconnect servers and systems for the potentially troublesome rollover into 2000. But once the millennium milestone is safely passed, members of the University of Dayton administrating computing staff will be reconnecting and testing systems on campus.

On Saturday, Jan. 1, members of the programming staff will test student systems beginning at 12:30 p.m. in Miriam Hall Room 300.

On Sunday, Jan. 2, staff members and selected computer system users will come in beginning at noon to test different systems in Miriam Hall and in other buildings on campus. Call Vicki Adams (see note above) on Sunday for details about times, locations and access to those buildings.
